AMENDMENT(S) TO THE SPECIFICATION:

Kindly replace paragraph number [0056] as follows:

--[0056] FIG. 8 shows an alternate embodiment of the wheels that provide ease of horizontal movement of the compartment that is at the loading vertical position. The compartment has a set of guide rollers or ~~wheels~~ 715 wheels 815 attached to each side. The guide ~~rollers~~ 715 rollers 815 are in support ~~rails~~ 713 rails 813 that are attached to the frame such that the compartment is movable horizontally when it is at the loading vertical position. In one embodiment, a further set of support ~~rails~~ 723 rails 823 are provided at the load area 105 of the imager 101 such that when the compartment is moved from the rest horizontal position to the loading horizontal position, the further set of support ~~rails~~ 723 rails 823 provide support of the ~~rollers~~ 715 rollers 815 of that part of the compartment that is over the load area 105.
